## **PRESIDENT'S MESSAGE**

#### HERE'S TO AUTUMN !

With all the changes that we have been facing, it feels good to see one which has some likeness to "normal".

What's on tap? Our "normal" club meeting at Idaho Pizza Co. is on: the program is still fluid, but expect fishing reports (including your own), raffles, and who knows what. The clubs library has been moved back to that location, so you can browse it for books, DVDs, and other sources of learning and pleasure. Date: 10/12/21 @ 7:00 pm.

The next evening, an online presentation regarding fishing alpine lakes is being presented by the Ted Trueblood Trout Unlimited chapter at 6:00 pm. Here is a link:

I have watched a couple of their presentations, and never felt the time wasted.

Expect a change for the fly tying session on the evening of the 19th. We plan to inventory the large collection of tying materials and tools that were generously donated to the club: a legacy of a local tier. Once we know what we have been given, we can figure out the best uses to which they can be placed. To some of us, it will be like kids around the Christmas tree.

I'm fresh out of recent fishing photos, so will you settle for "historical"?

### A FALL FISHIN TRIP BY Tale and Head

Fall is a great time to go fishing! Most outdoorsmen start hunting and forget fishing so that makes for less people on the water. The scenery this time of the year is the best, fall colors and less people in our pictures.

Brundage Res., out of McCall, is a great place to catch cutthroat and cutbow trout this time of year. You need to watch the weather to make sure it hasn't been below freezing for a week or more as this has a tenacity to put the fish off the bite.

Looking ahead at the weather forecast, Head and Tail fly fished "IT" on Oct. 5. On the water, or

the bank, by 12:00 and not a take on top for an hour, however the scenery was outstanding. At 2:00 Head had a fish on and landed a beautiful 16 inch cutthroat. Tail landed a cutthroat rainbow mix (cutbow) about 5 minutes later, not as "Purdy" as the first fish, but
